FAQ

What is Certificate of Origin?

A Certificate of Origin (C/O) is an official document used to certify the products originated, wholly obtained, produced or manufactured in a country. It is generally an integral part of import documents required by the imported countries.

At the time of carrying out the formalities for exporting the products under preferential treatment, the exporter or his authorized representative shall submit a written application for the Certificate of Origin together with appropriate supporting documents proving that the products to be exported qualify for the issuance of a Certificate of Origin.

There are two type of Certificate of Origin:

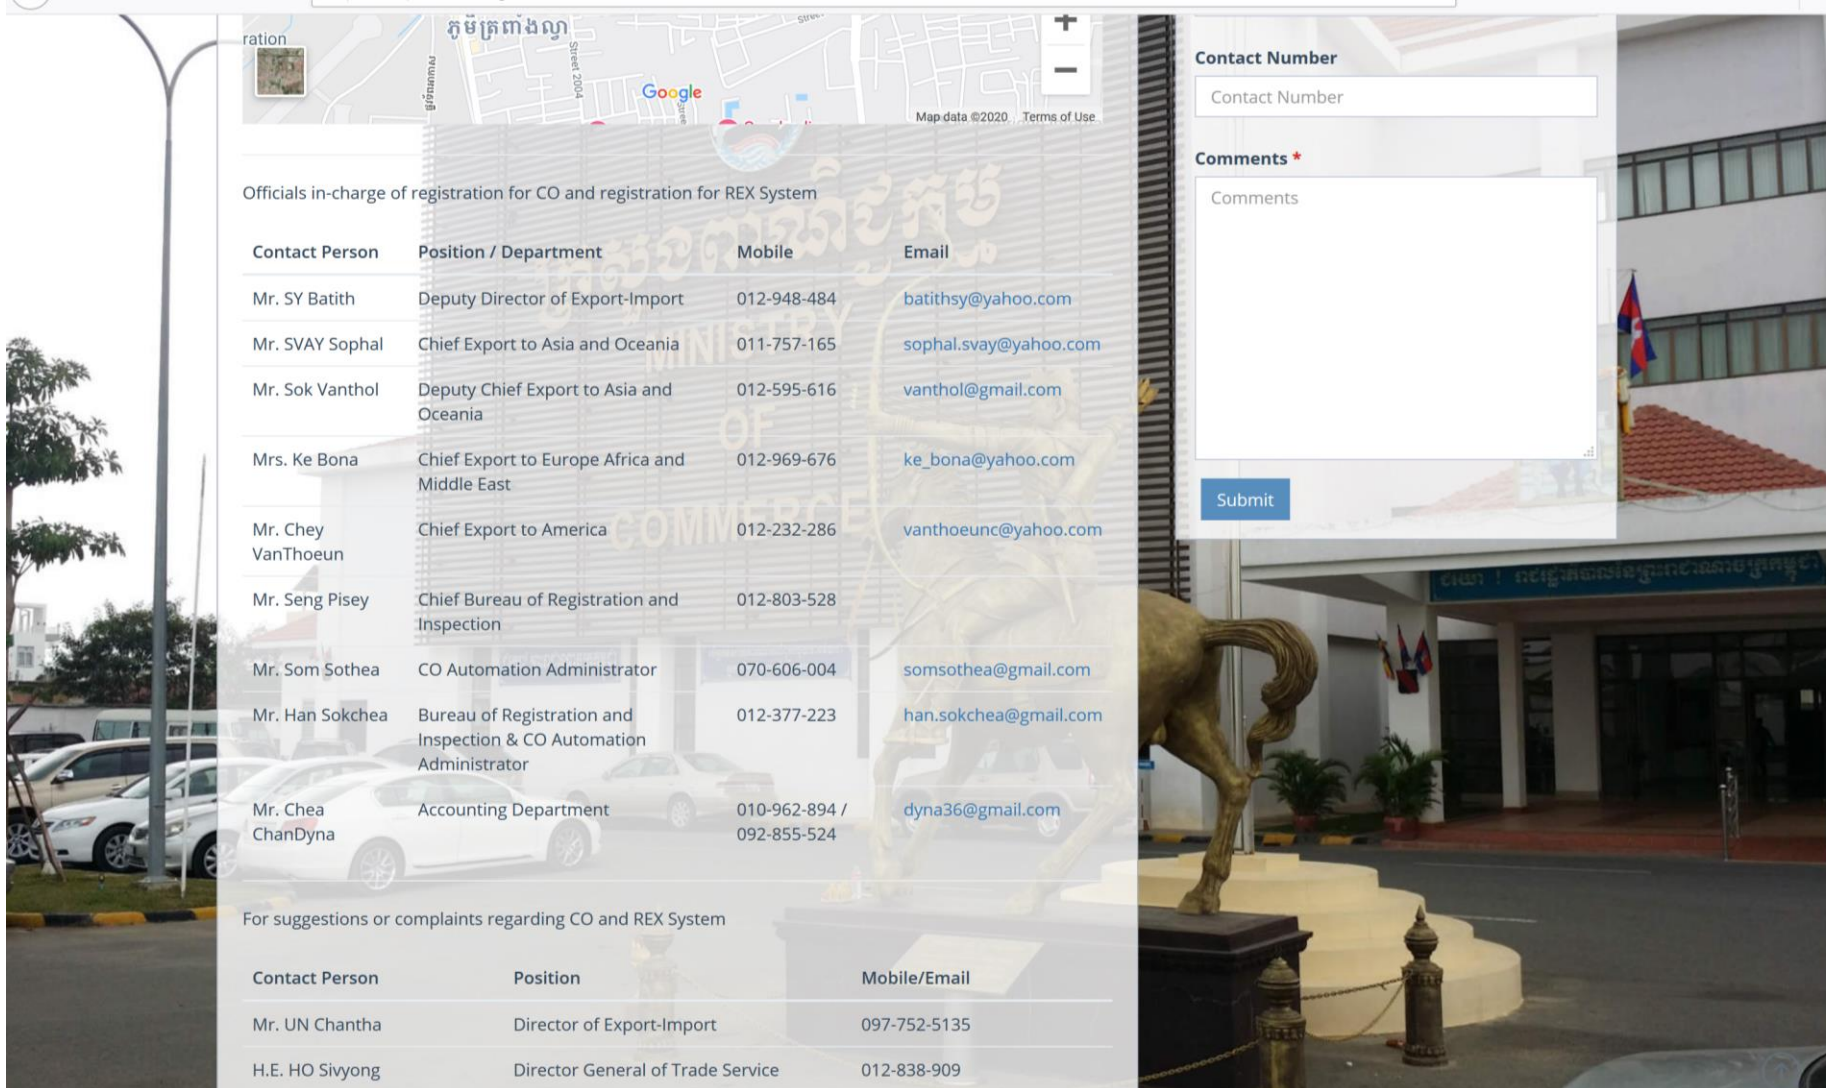

- Non-Preferential
- Preferential

How to apply for CO?

The exporters need to apply for C/O at the Export-Import Department, Ministry of Commerce. The procedures of the application for Certificate of Origin could be found in Prakas No 3198 on Certificate of Origin Issuance Procedures for all forms.

ASEAN Single Window (ASW)

ASW Introduction

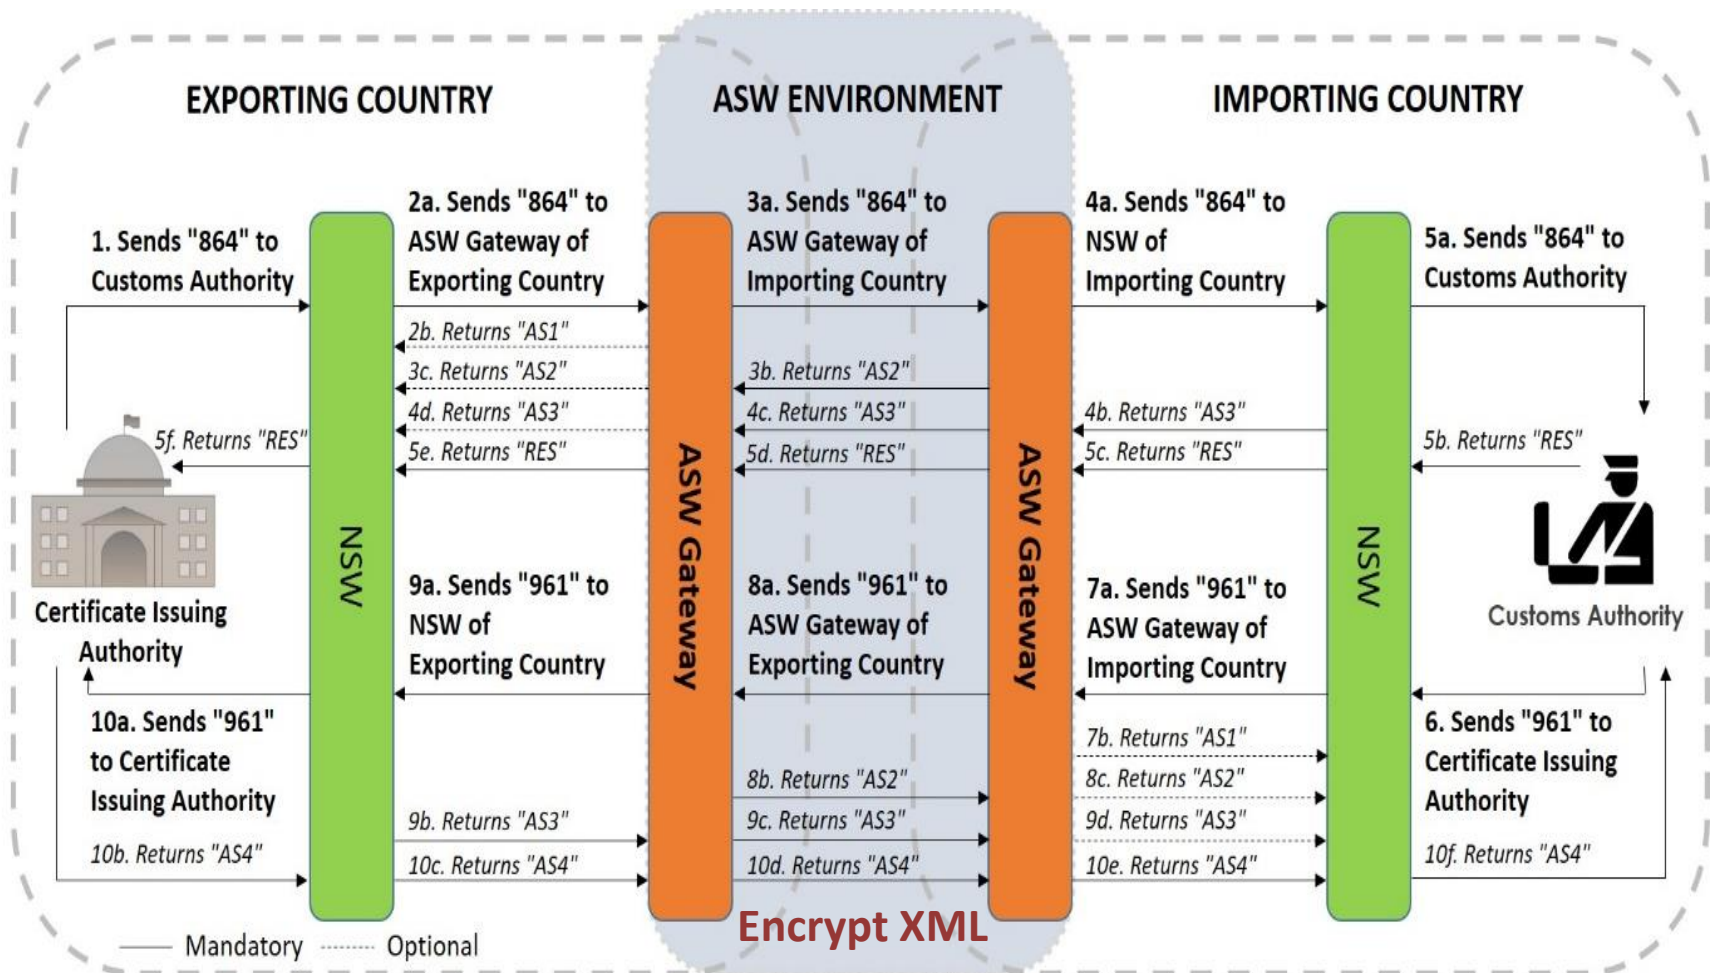

- All 10 ASEAN Member States Exchange the ATIGA e-Form D through the ASEAN Single Window. With a view to expediting customs clearance, ASEAN adopted an action plan to establish the ASEAN Single Window (ASW). The system enables a single submission of data, a single synchronous processing of information and a single decision-making for customs release and clearance among ASEAN Member States (AMS). Since January 2018, the ATIGA e-Form D has been the first e-documents exchanged through the ASW among five (5) AMS namely, Indonesia, Malaysia, Singapore, Thailand and Viet Nam.
- Following that progress, December 30, 2019 marked the day of the full live operation of the ATIGA e-Form D among all 10 AMS. With the complete connection of all 10 AMS, ASEAN is moving towards covering more trade documents such as ASEAN Customs Declaration Document (ACDD) and e-Phyto certificate, as well as connecting the Dialogue Partners systems to allow the exchange of electronic documents beyond the ASEAN region.

ATIGA e-Form D Application Flow

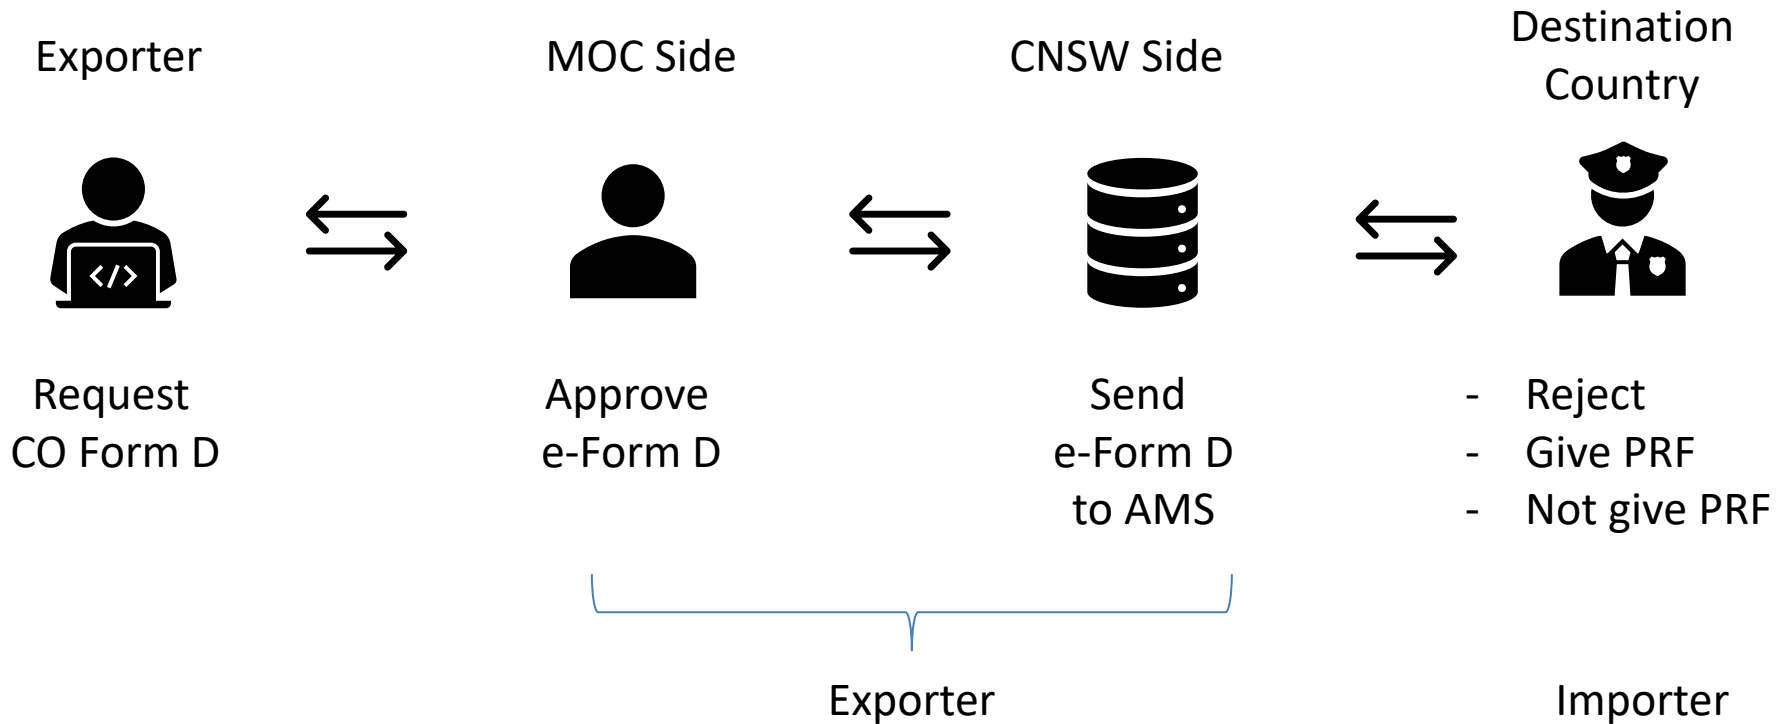

- MOC (Ministry of Commerce)
- CNSW (Cambodia National Single Window)
- AMS (ASEAN Member State)
- PRF (Preferential Treatment)

24th ASWSC on Live Operation of the ASW

- Following the reaffirmation to accept the ATIGA e-Form D of SEOM 2/51, Chair urged importing AMS to accept the ATIGA e-Form D without further requiring the submission of the hardcopies of ATIGA Form D.
- The Meeting agreed to move towards accepting the ATIGA e-Form D at all ports and points of entry, and that the hardcopy of ATIGA Form D would only be used during system downtime or when there are technical issues which could not be resolved promptly.
- 44th Meeting of the Working Group on Technical Matters for the ASEAN Single Window, in Bangkok, Thailand on 23-26 July 2018, which agreed that each Member State should develop a system that would allow traders to track the exchange status of their e-ATIGA Form D and encouraged the issuing authorities to inform the exporters of the exchange status of the e-ATIGA Form D for further sharing with importers.

FAQ

Welcome to ePCO

The Electronic Preferential Certificate of Origin (ePCO) is a web-based Certificate of Origin application and approval system. It is an online document that certifies the country of origin of a particular product. The ePCO is intended solely to prove the origin of goods in order to satisfy customs or trade requirements. It can be used also as supporting documents for the issuance of corresponding Certificate of Origin by another authorized party. It provides other functions to users such as:

- ✓ Online application of Cost Analysis and Preferential Certificate of Origin forms
- ✓ Online approval by authorized party (i.e. Ministry of International Trade and Industry-MITI)
- ✓ Online enquiry of application status

What's New

36th Sub Committee on ATIGA Rules of Origin (SC-AROO) on 21-23 June 2021

- Reaffirmed its understanding that traders are allowed to use any of three types of Proof of Origin i.e. paper-based Form D, e-Form D, and Origin Declaration at any time to claim preferential tariff treatment. In case the e-Form D is used, the Customs authorities of the importing countries would not require the submission of paper-based Form D in parallel. Only in case of system downtime, the paper-based Form D could be used in lieu of e-Form D.
- Thailand encouraged TWG-ASW to fully develop a cancellation function of e-Form D so as to remove the unused e-Forms D from the system and avoid any confusion where there are both revised e-Form D and erroneous one in the system.

Plan on ATIGA e-Form D MIG v.3.1.1

No	Action	Timeline
1	The PMO to circulate ATIGA e-Form D MIG v.3.1.1. and XML Schema Definition (XSD) based on the final version of change requests.	9 July 2021
2	Intersessional endorsement from the TWG	16 July 2021
3	Intersessional endorsement from the ASWSC	30 July 2021
4	AMS to deploy the ATIGA e-Form D MIG v3.1.1 and the XSDs to their testing environment.	16 August 2021
5	End-to-End Testing of ATIGA e-Form D inside the Common Header	1 September – 15 October 2021
6	Production Testing of ATIGA e-Form D inside the Common Header	16 October – 30 November 2021
7	Live Operation of ATIGA e-Form D inside the Common Header	1 December 2021

Flow on ATIGA e-Form D Cancellation

Exporter		MOC		CNSW		MOC
Submit	➔	Review	➔	Verify	➔	Approve
Attach letter of cancellation with reason (ឯកសារស្នើសុំលុប CO ATIGA e-Form D ចូលនាយកដ្ឋាន)		if Form = D 1. Generate XML CRQ 2. FTP file xml to CNSW 3. Update workflowstate to Pending for Verify with CNSW workflowstate = 10 and Abort = 1		Response from CNSW with Schedule if FunctionCode is "17" = OK if FunctionCode is "27" = NO with reason Must contain a response to the cancellation request, in free text format. It must be one of the following: - "Document cancelled" (if FunctionCode is "17") - "Document not found" (if FunctionCode is "27") - "Document already processed" (if FunctionCode is "27") If, in the case where the business document (e.g. ATIGA e-Form D) has not yet been processed, the recipient must cancel it and set the Function Code to "17" (Cancelled). However, if for any reason the business document cannot be cancelled (e.g. it cannot be found or it has already been processed), this should be set to "27" (Not Accepted). In both cases, an appropriate free text description must be specified in the payload (Seq. No. 26)		Aborted Automatically Approve លើសំណើសុំលុប e-Form D ដោយស្វ័យប្រវត្តិ ករណី FunctionCode is "17" 1. workflowstate = -30 2. abort = 1 3. email to exporter FunctionCode is "27" 1. workflowstate = 1000 2. abort = 0 3. email to exporter with reason 4. notification to officer (Telegram group or menu co inbox enquiry e-Form D Cancellation)
