Cambodia Securities Exchange

Phnom Penh, May 23rd, 2024

Press Release

Zero Commissions on All Stock Purchases

In a bold move to empower investors and enhance market accessibility during this dividend distribution season 2024, the Cambodia Securities Exchange (CSX) is thrilled to announce a special initiative that has never occurred, and that is **“Zero Commissions on All Stock Purchases”**. Effective for one month starting from **May 27 to June 28, 2024**, investors can purchase any stocks listed in the CSX without incurring any fees, through any brokerage firms that are the members of the CSX.

Our zero fees initiative coincides with dividend distribution season 2024, a time when most stocks listed on the CSX are currently conducting their annual dividend distributions, allowing investors to benefit from both zero transaction fees and the potential for dividend payouts.

CSX believes that everyone especially Cambodian people should have a chance to experience stock investment and get benefits from the stock market growths as well as the advancement of our national economy. By offering zero fees promotion for purchasing stocks, we aim to maximize the playing field and encourage broader participation in wealth creation through stock market.

With reduced barriers to entry, we anticipate the increasing of liquidity and trading volumes. Investors will have the flexibility to execute their trading strategies more productively, benefiting from a vibrant marketplace.

With the rising of investors' participation during the promotion period, we also anticipate that the market is likely to experience handsome trading prices, enabling a great opportunity for investors to expect growth momentum in their portfolios.

The decision to introduce 0% fees reflects our dedication to putting our investors first and providing them with the tools and resources they need to achieve their financial goals. We always commit to transparency, integrity, and high standards for the service of our clients. We will continue to strive for innovation to satisfy the needs of our investors.
